WASHINGTON.

Startling Arrival from the Treasury Detectives in Europe.

Investigation of the Affairs of the Sub-Treasury at San Francisco.

Proposed Consolidation of the Customs and Revenue Bureaus.

The Crop Prospects, as Stated by the Agricultural Department.

WASHINGTON, June 24.—Advices received to-day at the Treasury Department from the force of detectives in Europe, under the charge of Mr. Henry Cook, state that they have arrived at Liverpool, and are now on their way to London. In view of the state of affairs in Ireland, it is thought that the detectives will not remain long in London, but will proceed to Dublin, where they will be joined by Mr. Cook, who is now in Paris. It is thought that the detectives will be able to accomplish the object of their mission in a few weeks, and return to this country. The Treasury Department has not received any information from Captain Baker concerning the movements of the detectives, and it is not known whether they have left Paris or not. The Treasury Department has also received information that the Government bonds which were stolen from the Assistant Treasurer at San Francisco have been found in the possession of a party in Paris, and that the detectives have succeeded in recovering the bonds. The Treasury Department has not received any official information to that effect, but it is believed that the bonds have been found, and that the detectives will soon return to this country with them.

The Treasury Department has also received information that the Commissioner of Customs has recommended the consolidation of the Bureau of Customs with the Bureau of Internal Revenue, and that the Secretary of the Treasury has approved the recommendation. It is thought that Congress will adopt the recommendation, and that the consolidation will be made at the next session of Congress. The Commissioner of Customs has also recommended that the Custom-House at Key West be abolished, and that the business be transferred to the Collector of Internal Revenue at that place. The Secretary of the Treasury has also approved this recommendation, and it is thought that Congress will adopt it.

The Department of Agriculture has received its report for June, which will be published to-morrow. The report shows that the condition of the winter wheat crop is 98, and that the spring wheat crop is 97. The condition of the oat crop is 98, and that of the barley crop is 97. THE BRIDE COUNTESS.

The Consequences and Sad Fruits of the Bigamous Union of Viscount Clifton of Bibbler Valley and Their Princely Heiress.

[FROM OUR SPECIAL CORRESPONDENT.]

HAYMOUTH, June 4.

The Bibbs and the Blacks of this country to intermarry to everybody; although like the Montagues and Capulets of Verona, they have visited it with severe penalties. Those who have visited it will never forget the scenes, and those who have not will never forget the memories. As the stanch few now remaining, and this fourteen six pounding in from all parts of the world, I could not refrain the temptation to fall in with the general current. The attraction is the marriage of Viscount Clifton and Bigsby, whom the whole country is very curious to see. The Viscount is only a small portion of the river—Lord Cobbers and Bigsby, whom the whole country is fitted out the saddle and rallye most remarkable, and can be made in a few hours. Many of the numerous small Bibbs assembled. It is customary, however, to take any to an occasional font tour through the kingdom, which gives a variety of the points of principal interest. It will not, however, be necessary to give a detailed account of the journey. Suffice it to say that the Bibbs and Blacks are now in very close proximity to each other. Positions of the seats of
